A BETTER SOLUTION FOR DOG ANXIETY

- Gentle, constant pressure calms your dog
- Recommended by veterinarians*
- Recommended for vet visits, noise, travel, separation anxiety, and fearfulness**

HOW IT WORKS?

ThunderShirt® uses gentle, constant pressure to calm your dog. Experts believe that pressure has a calming effect on the nervous system, possibly by releasing a calming hormone like endorphins. Using pressure to relieve anxiety in people and animals has been a common practice for years such as swaddling infants and the use of gentle pressure and weighted vests to help people with autism.
